Response to Amendment

1. The examiner withdraws the objection to the use of the term "clockwise" on page 33, line 21 of the specification. The examiner acknowledges that the term "clockwise" in this instance is correct.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: Although the references of record show some similar features of applicant's claimed device, they fail to show or teach the claimed invention, wherein the electric-actuator means having a second output member to be mechanically coupled to a second safety member, and the inclusion of an additional electronic control device to the manual control device, where the electrical control device actuates the child safety function of the lock through the use of the second output member. The examiner believes that there is no proper motivation to combine the references of record to produce the applicant's claimed device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alyson M. Merlino whose telephone number is (571) 272-2219. The examiner can normally be reached on Monday through Friday, 7:30 - 5:00.
